Castel Maggiore, July 2nd 2007
To all our customers

SUBJECT: UPGRADED SEQUENTIAL SYSTEM: PRESSURE REGULATOR RP/G05S

We are glad to inform you that it is now available the new upgraded version of the LPG pressure regulator **RP/G 05 S**.

The new gas-outlet is straight for improving the flow of the LPG out of the regulator. The following chart explains exactly the improvements:

Portata massima	+5%
Capacità di scambio termico	+10%
Peso	-7%

All other characteristics, such as installation and connection to the other pneumatic and electrical components of our system, **remain totally unchanged**.

The upgrade has already become part of our standard production starting from 26th June 2007 and it will involve all the kits with pressure regulator RP/G 05 S.

We remain at your complete disposal for any further information or clarifications.

Best regards
